

WALL DECO FAB SHEET

XEIKON

WALL DECO FEATURES

Digital printing

WALL DECO ADVANTAGES

- No setup, make ready time/costs
- Variable design printing
- Short delivery timing (JIT)
- Zero inventory
- No obsolescence

WALL DECO BENEFITS

- Cost efficient production of short to medium run printing, unique rolls
- Cost efficient production of trails, startup and sample books
- Avoid cost for stock and obsolescence
- Production and planning flexibility
- Offer personalisation in waldeco
- Faster response time
- Offer latest trends

EP technology

- Stable mature process
- Dry process
- No pretreatment necessary
- No drying capacity necessary

- High uptime
- Full productivity
- Printing on wide variety substrates
- Safe for operator, end user, environment
- Tuned for application and press

Image quality 1200dpi / 4bps

- Offset printing quality
- Fine line work
- No printing artifacts

- Highest digital quality available on the market
- Match and exceed conventional printing qualities
- No loss of printed materials because of inferior quality

Color capability 5/5 or 5/0

- Extend color gamut
- Spot color
- Special effects (UV, fluo, white)
- High light fastness

- Offer wide variety of designs and styles
- Ensure color matching with existing technology/applications
- Offer true simulations for startup collections
- Offer brand colors or customer colors
- Offer durable product for interior use

Continuous feed /full rotary

- No repeat length

- Print endless images and murals as well as repeat designs

Single pass duplex™

- High productivity
- No speed hit on number of colors
- No speed hit on resolution

- Benefit of full press speed regardless of image content and quality

WALL DECO FEATURES

WALL DECO ADVANTAGES

WALL DECO BENEFITS

X-800

Automation

- MIS, ERP, W2P compatibility
- color management
- tiling
- inline spectrophotometers

- Easy integration with existing workflow and tools for streamlined production and logistics workflow
- Output repeatability across devices (color mgt)
- No extra file manipulation for production

 Xeikon Aura

Industry partners

- Qualified & certified media list
- Finishing integration & consulting

- 1 partner for complete implementation of the production solution
- Access to best in breed solutions without effort
- Staying up to date on latest sector developments
- Fast finishing and converting
- Piece of mind

 Xeikon Aura
Finance

Financial solutions

- Competitive all-in operational leasing solutions
- Saving the burden of one-time significant cash payment

- Helps a business to maintain a steady cash-flow profile
- Access to high quality equipment
- Better use of capital
- Off-balance sheet debt (company value!)
- Low capex for startups
- No risk of 'old' equipment, protected investment
- Bundle

Substrate flexibility

- Print leading non-wovens on the market
- No pre-treatment, drying time, see-through effect
- wide variety of non-wovens

- No extra costs/complexity for specific substrate or coating
- Ease access to a network of paper mills
- Select matching substrate cost for application/target audience
- Scriptfiles from all leading non-woven vendors
- Supplier independence
- Plug&play
- Printing on wide range of grammages 40gsm-350gsm

Eco-friendly

- Dry toner production in 100% green energy plant
- No VOC
- Odorless
- Deinkability

- Regulatory compliance without extra effort such as EN15102
- Applicability in all environments, even the most critical ones
- Wide market reach for selling the product

Speed

- Up to 30m/min

- Scalable production
- Increase run length and extend digital capacity
- Fast response time
- Fastest proven digital solution on the market
- No environmental impact
- No separate/special waste collectio
